TEKK GROUP
GLOBAL IT RENTAL SPECIALISTS

ABOUT THE TEKK GROUP

The Tekk Group are an award winning Technology Rental company with Headquarters located in the UK and USA along with locations around the globe including Las Vegas, London, Barcelona, Dubai and Sydney.

We specialise in the hire of iPads, Tablets, Laptops, VR gear, Hololens, Large Screens, Printers, Barcode scanners, Giant Tablets and all the accessories to go with them, the list can go on and on. Along with the hardware for events, we provide Software and Event Services.

Data Capture App

The Tekk Group are proud to be able to supply some great options for your data capture requirements. We can create a bespoke app for you 100% customised to your event requirements. We can build surveys for feedback on products/services or just data capture to save potential clients contact details to get in touch with them after the event.

We offer a bespoke service or a lite version of the same software which is a very simple and easy to use form builder for surveys and data capture. You can now conduct surveys offline on our devices. Our flexible solutions allow a survey to be run on an unlimited number of devices. Get in touch for a quote and let's discuss exactly what you need for your next event!

Conference / Event App

The Tekk Groups iPad rentals along with second screen and audience engagement technology will transform your company's live conferences into dynamic experiences. Promote meaningful dialogue and interaction through audience response, interactive polling, surveys, and games. Inspire competitive learning and improve your audience's experience.

»» Improve your conference experience with detailed analytics

Obtain powerful insights into your audience's thoughts and actions!

Capture every click and action, from scoring slides to taking notes.

Compare and correlate engagement, sentiment and feedback.

Make data-driven improvements on all aspects of your conference.

»» Engage every participant with more than 25 ways to interact.

Save slides, notes and resources with a single click.

Create a two-way dialogue between presenters and participants.

Increase response rates with digital surveys, polls & evaluations.

»» Create Dynamic Conferences, drive meeting innovation with the latest in engagement technology.

Delight and excite participants with interactive games and quizzes.

Integrate participant profiling with CRM systems.

Do onsite research and publish the results for attendees.

EPOS Rental

We have partnered with Zettle by Paypal to offer exclusive rates on transactions and hardware. Zettle by Paypal provides merchants with an all-in-on solution with flexible solutions to cater to all businesses.

With the growing need for cashless transactions, we can supply easy to use Card Machine terminals and EPOS that completely integrate with each other to offer a unified experience.

We provide everything from card readers, to a fully integrated POS solution including cash drawers, printers and stands and installation.

Wireless Headset Hire

Enhance the noise quality of your events and conferences using The Tekk Groups noise cancelling wireless headsets. With 10 available headsets and optional branding you leave a lasting impression on attendees who will be able to listen to each speaker in ways they are unable to at other busy and noisy events.

By reducing background noise, speakers and attendees can improve communication and get the most out of your event. With the ability to run multiple breakout rooms and stream content in multiple languages your event will be unlike any other conference where loud noise and language barriers may hinder attendee experience. Leave a lasting impression on visitors with the ten channel headsets with custom branding also available.

Virtual and Covid safe events are no different - with the mobile app, which has an unlimited capacity for users, giving individuals the option to use their own headsets while maximising the content that can be delivered using uncapped channels simultaneously.

Why use Silent Seminar?

Wireless headsets are the revolutionary way to improve your events and delivering clearer audio in multiple languages, for easy communication and a great attendees experience. The Silent Seminar technology is the best solution for many purposes, such as:

Silent seminars, corporate events and business conferences;
Silent disco, for any kind of parties, wedding, festivals;
Silent cinema, silent memories and others events.

Interactive Quiz + Polling App

Our iPad Quiz system can be quickly installed on any iPad as it is a web app and run off a local server. Unlike the old keypad system, the iPad quiz doesn't require a large group of people to make it effective. The software handles both portrait and landscape orientations and fully customised and themed to match any corporate branding you wish to have.

Silent Auction App

The Tekk Group is proud to provide an all-in-one mobile fundraising platform used for live fundraising events and online campaigns. Supporters simply take part in using our mobile phones or iPads.

Our technology allows you the option to facilitate live, silent or online auctions. You can give bidders the opportunity to browse or pre-bid on big ticket items prior to the event and then close off the bidding just before the live auction! The Silent Auction Software is customisable, customise your virtual auction catalogue with your own artwork, colour scheme, logos and sponsors.

Guests can register, view items place bids, and make payments via shared iPads on tables. Bidding kiosks can also be provided for the silent auction display area.

We offer a multitude of exceptional consignment items ranging from luxury holidays to adventure and lifestyle packages, unique jewellery, fine artwork and sport and music memorabilia.

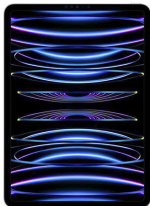

With our remote service option, you will be trained to use our comprehensive and easy-to-use platform and will receive on-call support in case you should have any questions at the live event. Alternatively, if opting for our onsite support option you will be provided with experienced staff to help with the management of the auction, payment and collection desk. Regardless of which option you decide, a dedicated account manager will be on hand from the get-go to help you set up, launch and manage your auction.

Each iPad user can run through the quiz at their own pace or we can set a timer for the quiz if you prefer, the system can handle multiple iPads and users at any one time. You can choose between having the results on a master admin iPad or posted onto a live scoreboard. A scoreboard can be displayed on a plasma screen where the Top 10 scores are constantly updated in real-time. The time taken to answer the questions is also taken into account in milliseconds, eliminating the possibility of a tie.
